### 4 **Risk disclosure & acknowledgment**

- 4.1 It is important for the Client to understand the risks involved before deciding to enter into a trading relationship with the Company. If the Client chooses to enter into a trading relationship with the Company, they should remain aware of the risks involved and be able to have adequate financial resources to bear such risks.
- 4.2 The Financial Instruments offered by the Company are high-risk products that are traded on margin and carry a risk of losing all Client’s initial deposit. These kind of products can fluctuate significantly and present a high risk of capital loss, therefore these products may not be appropriate or suitable for all clients and the Client should seek independent advice should they not able to understand the risks involved.
- 4.3 General risks and acknowledgements: The Client acknowledges, understands, agrees and accepts the risks including, but are not limited to:
- (1) The Company does not and cannot guarantee that the funds deposited in the Client’s Account for trading will not be lost as a result of the Client’s transactions;

- (2) the Client acknowledges that, regardless of any information which may be offered by the Company, the value of any investment in the Financial Instruments may fluctuate downwards or upwards and it is even probable that the investment may become of no value;
- (3) the Client acknowledges that they run a great risk of incurring losses and damages as a result of the purchase and/or sale of any Financial Instrument and accepts that they are willing to undertake this risk;
- (4) the use of historical data does not constitute a binding or safe forecast as to the corresponding future performance of the Financial Instruments to which the said information refers;
- (5) the Client is hereby advised that the transactions undertaken through the dealing services of the Company may be of a speculative nature and large losses may occur in a short period of time and may be equal to the total value of funds deposited with the Company;
- (6) some Financial Instruments may not become immediately liquid, for example, as a result of reduced demand and the Client may not be in a position to sell them or easily obtain information on the value of these Financial Instruments or the extent of the associated risks;
- (7) when a Financial Instrument is traded in a currency other than the currency of the Client's country of residence, any changes in the exchange rates may have a negative effect on its value, price and performance;
- (8) a Financial Instrument on foreign markets may entail risks different to the usual risks of the markets in the Client's country of residence and, in some cases, these risks may be greater;
- (9) the prospect of profit or loss from transactions on foreign markets may be affected by exchange rate fluctuations;
- (10) the Client should not purchase a Financial Instrument unless they are willing to undertake the risks of losing entirely all the money which they have invested and also any additional commissions and other expenses incurred;
- (11) under certain market conditions (for example but not limited to the following situations: force majeure events, technical failure, communications network failure, poor or no liquidity, market news or announcements etc.) it may be difficult or impossible to execute an order;
- (12) should the Equity of the Client be insufficient to hold current positions open, the Client may be called upon to deposit additional funds at short notice or reduce exposure and, failure to do so within the required time may result in the liquidation of positions at a loss and the Client will be liable for any resulting deficit;
- (13) trading on-line, no matter how convenient or efficient, does not necessarily reduce risks associated with currency trading;
- (14) there is a risk that the Client's trades in Financial Instruments may be or become subject to tax and/or any other stamp duty, for example, because of changes in legislation or their personal circumstances;
- (15) the Company does not warrant that no tax and/or any other stamp duty will be payable and, the Client will be responsible for any taxes and/or any other duty which may accrue in respect of their trades;
- (16) before the Client begins to trade, they should obtain details of all commissions and other charges for which the Client will be liable and, if any charges are not expressed in monetary terms (but for example a spread), the Client should ask for a written explanation, including appropriate examples, to establish what such charges are likely to mean in specific monetary terms;
- (17) the Company will not provide the Client with investment advice relating to investments or possible transactions in investments or make investment recommendations of any kind; and

- (18) there may be situations, movements and/or conditions occurring at the weekend, at the beginning of the week or intra-day after the release of the significant macroeconomic figures, economic or political news that make currency markets to open with price levels that substantially differ from previous prices. In this case, there exists a significant risk that orders issued to protect open positions and open new positions may be executed at prices significantly different from those designated.

## 5 **Account opening procedure**

- 5.1 Before opening a new account, the Company provides the Client via its Website, email or in person with the required information regarding the Company and a copy of this Agreement. After logging on the Website, the Client will complete and/or receive the application package which consists of the following: a) account application form; b) relevant information/documents of the client; and c) this Agreement.
- 5.2 The Company is obligated by the Applicable Regulations to perform Know-Your-Client (**KYC**) and due diligence procedures in order to verify the identity of each person who registers online via the Company's Website. For this purpose, the Company will collect information about the Client such as name, surname, address, telephone number, email, nationality, date of birth and other details.
- 5.3 When the Company receives the Client's completed online application form, it may use the information to conduct any further enquiries about the Client as the Company determines under the circumstances and its internal policies and procedures. The Company also carries out additional checks or periodic reviews. The Client will need to co-operate with the Company and supply the information requested promptly. The Company relies on the information that it is provided by the Client in the online application form or otherwise as being correct and not misleading at all times, unless the Client notifies the Company otherwise in writing. In particular, the Client must notify the Company as soon as possible in writing if any of the details provided to the Company in the application form or if their circumstances have subsequently changed.
- 5.4 The Company is not required (and may be unable under Applicable Regulations) to accept a person as its Client until all documentation it requires has been received and is properly and fully completed by such person and all internal checks (including without limitation all anti-money laundering, customer identification and due diligence checks) have been duly satisfied. It is further understood that the Company reserves the right to impose additional due diligence requirements to accept Clients residing in certain countries where the risk of money laundering may be higher. During the customer identification and due diligence checks, the Company shall apply processes to verify the Client's identity for which (amongst other things) photo identification information will be required by the Client. In certain circumstances, the Company may require this information to be authenticated by an appropriate third party. The Company requires, as a minimum, a government issued photo identity document such as a passport, driving license and/or identity card containing the Client's full name, personal photo, date of birth, identity number and expiry date, as well as evidence of their residential address, such as a utility bill or bank statement, for the verification process. The information in these documents should agree with the details submitted in the Client's application.
- 5.5 The Company will assess the information received by the Client during the account opening procedure in order to determine whether the Client is eligible or not in investing and/or operating a trading account with the Company. The Client's trading account will be opened following the assessment and completion of the KYC and due diligence procedure.
- 5.6 In the event that a client, be it an individual or a corporate entity, fails to adhere to the Know Your Customer (KYC) requirements as prescribed by the pertinent regulatory authority under Section 17C (6) of Financial Intelligence & Anti Money Laundering Act (FIAMLA) 2002 or if the company harbors suspicions that any client is in non-compliance with the stipulations set forth by The Financial Action Task Force (FATF), it is incumbent upon the company's Compliance Officer/ Money Laundering Reporting Officer/Deputy Money Laundering Reporting Officer (hereinafter referred to collectively as the "Compliance Officer") to be promptly apprised of such circumstances.

Upon receiving notice of such suspicion, the Compliance Officer shall undertake a thorough investigation to ascertain the grounds upon which this suspicion has arisen, including an examination of relevant documentation, transactional records, and other pertinent information as deemed necessary.

For detailed procedural guidance pertaining to the identification and handling of suspicious transactions, reference should be made to the Anti-Money Laundering (AML) policy and procedures delineated in the 360 Capital Manual. Specifically, guidance on the process of managing suspicious transactions can be found in the referenced manual on page 64, under the "Suspicious Transaction Flow Chart" section.

This protocol is enacted to ensure compliance with the prescribed KYC and FATF requirements, thereby safeguarding the company's adherence to legal and regulatory obligations concerning anti-money laundering and counter-terrorist financing measures.

- 5.7 In the event that the company's request for rectifying noncompliance persists unresolved for a duration not exceeding 30 days subsequent to the initial report of such noncompliance to the company's designated Compliance Officer, it shall be incumbent upon the company, as mandated by statutory provisions, to suspend the provision of all services to the respective client.

This obligation arises in strict accordance with the law, specifically under Section 3 of the Financial Institutions Anti-Money Laundering Act of 2002 (FIAMLA 2002), which enunciates in sub-sections 1(a) and 1(b), that the company is under a legal obligation to take immediate action without requiring consultation with the client and halt all trading activity on all of the clients' accounts. The said legal provisions necessitate and duly compel the company to effectuate the removal of any accrued profit associated with the client's account(s). Consequently, the account balances shall be restored exclusively to the aggregate sum of deposits received, from which any withdrawals disbursed shall be deducted.

This course of action is mandated to ensure compliance with the pertinent statutory requirements and to uphold the integrity of anti-money laundering and regulatory standards as promulgated by the FIAMLA 2002, with paramount consideration for the preservation of legal and financial propriety.

## 6 Fees and charges

- 6.1 The Client shall be required to pay the charges, as agreed from time to time, any fees or other charges imposed by third parties during the execution of the services. The Company's current charges including spreads, charges, interest and other fees are published on the Website and any alteration to charges will be notified to the Client via the Website or via the trading platform terminal or via an email sent to the Client's registered address used during the registration process. By accepting this Agreement, the Client acknowledges that they have read, understood and is in agreement with the fees and charges uploaded on the Website. The Client further agrees that the Company is entitled to change its charges without any consultation or prior consent from the Client.
- 6.2 The Company is compensated for its services through the buy/sell (ask/bid) spread, so when the Client opens a position in a specific instrument, they essentially "pay" the spread. The spread rates per instrument can be viewed by the Client at any time on the Website.
- 6.3 Subject to the Financial Instruments traded by the Client, the following charges may be incurred:

(1) Spread

A spread is the difference between the bid (buy) and the ask (sell) price on the specific instrument the Client trades. This cost is realised every time the Client opens and closes a trade.

(2) Commission (applicable only to CFDs on futures and CFDs on shares)

This is the commission the Client pays when they buy and sell a Financial Instrument.

(3) Currency conversion

This is the cost incurred when converting realised profits and losses as well as any costs and charges that are denominated in a currency other than the base currency of the Client's Account.

(4) Overnight Funding/Swap (Financing Fee)

This is the swap cost for keeping the Client's position open overnight. The swap cost can be positive or negative depending on the instrument to be traded. An overnight funding amount is either added to or subtracted from the Client's account when holding a position after a certain time.

(5) Trading inactivity

- (a) If the Client's Account is inactive for three (3) months or more (i.e. there is no trading, no open positions, no withdrawals or deposits), the Company reserves the right to consider the Client's Account as 'Inactive' and shall have the right to charge an Inactivity Fee for a monthly maintenance.
- (b) If the Client did not place a buy or sell trade during the last three (3) calendar months, the Company will apply a charge of 0.25% on the current balance of the account, but a minimum of EUR 30 (thirty Euros) per month as an Inactivity Fee. The Inactivity Fees are charged quarterly.

6.4 All payments to the Company under this Agreement shall be made in such currency as the Company from time to time specifies to the bank account designated by the Company for such purposes.

6.5 The Company may share charges with third parties, like introducing brokers or affiliates, for services carried out on your behalf in the form of commission, mark-up, mark-down or other remuneration. Details of such remuneration or sharing arrangements are available to the Client upon request.

## 7 Conflicts of interest

7.1 The Company will take all reasonable steps to identify and manage conflicts of interest between itself, including its managers and employees or other relevant persons as well as any person directly or indirectly linked to them by control, and Clients or between one Client and another, that arise in the course of providing any of the Services under this Agreement, and to organize and control their internal affairs responsibly and effectively.

7.2 The Company will manage conflicts of interest fairly, between itself and its Clients, between itself and its employees and between its customers and to organise and control their internal affairs responsibly and effectively in accordance with its Conflict of Interest Policy which is enclosed in this Agreement as Annex 1.

## 8 Inducements

8.1 The Company shall take reasonable steps to ensure that neither it nor any of its employees or agents either offers or gives, or solicits or accepts, any inducement that is likely to conflict with any duties owed to its Clients. For this purpose, the Company does not receive or pay any fees, commissions or non-monetary benefits in relation to the provision of the Services to or by any third party, except Client, subject to clause 8.2.

8.2 The Company may pay and/or receive fees/commission to/from third parties, provided that these benefits are designed to enhance the quality of the offered Service to the Client and not impair compliance with the Company's duty to act in the best interests of the Client. An indicative list of fees/commission to/from third parties which are designed to enhance the quality of the offered Service to the Client and not impair compliance with the Company's duty to act in the best interests of the Client may be regulatory levies, legal fees, bank and payment provider fees, liquidity providers' fees, platform fees and marketing fees etc.

8.3 A fee, commission or non-monetary benefit should only be paid or received where:

- (1) it is justified by the provision of an additional or higher level service to the relevant Client, proportional to the level of inducements received;
- (2) it does not directly benefit the recipient firm, its shareholders or employees without a tangible benefit to the Client; and

(3) it is justified by the provision of an on-going benefit to the relevant Client in relation to an on-going inducement.

8.4 The Company shall keep records evidencing the fees, commissions or non-monetary benefits paid or received by the Company which are designed to enhance the quality of the relevant service to the Client.

## **9 Client money and transfer of funds**

9.1 The Company ensures to promptly segregate any Client money from the Company's own accounts and open a segregated account with an approved bank and/or a payment provider that has been assessed by the Company and/or approved by the Company's management. Any Client's money shall be paid into a segregated client bank account denoted as "Client" bank account.

9.2 Unless the Client notifies the Company in writing or otherwise, the Company may pass on Client money or allow another person, such as an exchange, a clearing house or an intermediate broker, to hold or control Client money where the Company transfers the Client money (a) for the purposes of a transaction for the Client through or with that person; or (b) to meet the Client's obligations to provide collateral for a transaction (e.g. a margin requirement for a derivative transaction). By accepting this Agreement, the Client gives their consent and authorizes the Company, where applicable, to transfer/hold their funds with other parties or business partners i.e liquidity providers for settlement purposes. The Company shall not be liable for the solvency, acts or omissions of any institution with which Client money may be held.

9.3 The third party to whom the Company may pass money may hold it in an omnibus account and it may not be possible to separate it from the Client's money, or the third party's money in which case the Client will not have any claim against a specific sum in a specific account in the event of insolvency. The Company does not accept any liability or responsibility for any resulting losses.

9.4 By entering into this Agreement, the Client agrees that the Company will not pay the Client interest on Client money or any other unencumbered funds.

9.5 Any amounts transferred by the Client to the Client's bank account will be deposited in the Client's Account at the "value date" of the received payment and net of any deduction/charges by the Client's bank account providers. In case the Client's account reaches a stop-out during the processing period of the deposit, the Company bears no responsibility for any losses suffered.

9.6 The Company acts in accordance with international anti-money laundering regulations and local anti-money laundering rules and thus the transfer of funds and transactions are done based on these rules. For this purpose, Client's withdrawals should be made using the same method used by the Client to fund their Client Account and to the same remitter. The Company reserves the right to decline a withdrawal with a specific payment method and will suggest another payment method where the Client needs to proceed with a new withdrawal request or request further documentation while processing the withdrawal request. Where applicable, if the Company is not satisfied with any documentation provided by the Client or if the Company has reasonable grounds for suspecting that a Client violates Applicable Regulations, then the Company will reverse the withdrawal transaction and deposit the amount back to the Client's Account and the Client will suffer the relevant Client's bank account provider's charges.

9.7 By accepting this Agreement, the Client gives their consent and authorizes the Company to make deposits and withdrawals from the Client's bank account on the Client's behalf, including but not limited to, the settlement of transactions performed by or on behalf of the Client, for payment of all amounts due by or on behalf of the Client to the Company or any other person.

9.8 The Client acknowledges that in the case where a Client's bank account is frozen for any given period and for any given reason, the Company assumes no responsibility and Client's funds will also be frozen.

## **10 Client's orders/instructions & execution of orders**

10.1 Execution of orders: It is the Company's approach to take all sufficient steps to obtain the best possible result on behalf of its Clients when executing Client orders on Financial Instruments offered by the Company or receiving and transmitting orders for execution. The Client understands and acknowledges that the Company will enter into transactions with the Client either as principal (counterparty) or as agent. The Company will be the contractual counterparty to the Client.

- 10.2 The Company, when executing orders, will obtain the best possible result for Clients, taking into account factors like price, costs, speed, likelihood of execution and settlement, size, market impact or any other consideration relevant to the execution of the order. Where the Company executes an order on behalf of a Client, the best possible result shall be determined in terms of the total consideration, representing the price of the Financial Instrument and the costs relating to execution, which shall include all expenses incurred by the Client which directly relate to the execution of the order.
- 10.3 For determining the importance of the execution factors indicated above, the following criteria are also taken into account:
- (1) the characteristics of the Client;
  - (2) the characteristics of the Client's order;
  - (3) the characteristics of the Financial Instruments that are the subject of that order; and
  - (4) the characteristics of the execution venues to which that order can be directed.
- 10.4 The Client understands and confirms that all orders received by the Company from the Client are orders for execution outside a Regulated Market or MTF.
- 10.5 Client's orders/instructions: Orders may be placed with the Company once the Client gets access to the Trading Platform. The Company will be entitled to rely and act on any order placed on the Trading Platform without any further enquiry to the Client and any such orders will be binding upon the Client.
- 10.6 The Company's buy/sell prices for a given CFD are calculated by reference to the price of the relevant Underlying Asset. Third party reputable external resources (i.e. feed providers) obtain prices (buy/sell prices) of the Underlying Asset for a given CFD. The Company then uses the prices given by the feed providers to calculate their own tradable prices for a given CFD. The Company adjusts the Spread (i.e. the difference between the buy/sell prices), hence the prices it quotes to Clients compared to the prices it obtains from third party external reference sources may differ, as they include a Spread adjustment. The Company provides quotes by taking into account the Underlying Asset price. The Client acknowledges that such quotes will be set by the Company at its absolute discretion.
- 10.7 Orders can be placed, executed and changed or removed within the trading hours for each CFD showed on the Company's Website, as amended by the Company from time to time and if they are not executed they shall remain effective through the next trading session (as applicable). The Company shall not be obliged to arrange the execution of the Client's orders in respect of any CFD out of normal trading hours which appear on the Company's Website.
- 10.8 If any tradable instrument becomes subject to possible adjustments, the Company will determine the appropriate adjustment, if any, to be made to the opening/closing price, size, value and/or quantity of the corresponding transaction. The determination of any adjustment or amendment to the opening/closing price, size, value and/or quantity of the transaction (and/or the level or size of any order) shall be at the Company's sole discretion and shall be conclusive and binding upon the Client. The Company shall inform the Client of any adjustment or amendment via its internal mail as soon as is reasonably practicable.
- 10.9 During the occurrence of a manifest error i.e. a manifest or obvious misquote by the Company, or any market, liquidity provider or official price source on which the Company has relied in connection with any transaction, having regard to the current market conditions at the time an order is placed as the Company may reasonably determine, the Company may amend the details of affected transactions to reflect what the Company reasonably determines as correct and fair and/or declare any or all affected transactions as void.
- 10.10 During periods of abnormal market (volatile) conditions, during news announcements, on opening gaps (trading session starts), or on possible gaps where the Underlying Asset has been suspended or restricted on a particular market, buy/sell stop and stop loss orders may not be filled at requested/declared price but instead at the next best available price. In such case, take profit orders below/above buy stop/sell stop orders or stop loss orders above/below buy stop/sell stop orders during activation will be removed. The same applies when a trading strategy is deemed as abusive, because it is aiming towards potential riskless profit or another strategy deemed by the Company to

be abusive. Accordingly, placing a stop loss order will not necessarily limit the Client's losses at the intended amount.

## 11 **Margin/leverage level**

- 11.1 The Margin/leverage levels applicable to the different products offered by the Company can be found on the Company's Website. If at any time the Equity falls below a certain percentage of the required Margin, specified on the Website, the Company has the right to close any or all of the Client's open positions without the Client's consent or any prior written notice to them.
- 11.2 The Client is responsible to monitor its account balance and keep sufficient funds in its Account in order for its open positions to remain unaffected. The Company shall have the right, but not the obligation, to start closing Client's open positions starting from the most unprofitable, when the Margin is less than 100% of the Margin requirement. In the case where the Margin is equal to or less than 50% of the Margin requirement, then Client's positions shall be automatically closed, starting from the most unprofitable, at the prevailing market price.
- 11.3 Margin or leverage level may be set and varied without prior notice from time to time in the Company's sole and absolute discretion in order to cover any realised or unrealised losses arising from or in connection with transactions, including subsequent variation of any Margin rates set at the time transactions are opened. The Client can request to change their account leverage at any time by contacting the Company.
- 11.4 On every Friday and between the hours of 21:00 till 24:00 (GMT+3) and occasionally before the release of major economic news, the Company may maintain a maximum leverage on remaining instruments other than foreign exchange for any new positions opened during such period which such requirement, if any, will be disclosed on the Company's website.

## 12 **Decline of Client's orders and instructions**

- 12.1 The Company is entitled to decline or refuse to transmit or arrange for the execution of any order in any of the following cases, as applicable:
- (1) under abnormal market conditions;
  - (2) if the Client's free Margin is less than the required Margin or there are no available cleared funds deposited in the Client's Account to pay all the charges of the particular order;
  - (3) it is impossible to proceed with an order regarding the size or price or the proposed transaction is of such a size (too small or too large), that the Company does not wish to accept that order or the Company believes that it will not be able to hedge the proposed transaction or it is impossible for the order to be executed due to a condition of the relevant market;
  - (4) where the Company suspects that the Client is engaged in money laundering activities or terrorist financing or other criminal acts;
  - (5) in consequence of a request of regulatory or supervisory authorities or a court order;
  - (6) where the legality or genuineness of the order is under doubt;
  - (7) there is absence of essential detail of the order or the order is not clear or has more than one interpretation;
  - (8) a quote is not obtained from the Company or the quote obtained by the Company is an indicative quote or the quote is the result of manifest error or the quote is an erroneous quote;
  - (9) internet connection or communications are disrupted;
  - (10) a force majeure event has occurred;
  - (11) the Company has sent a notice of termination of this Agreement to the Client; or
  - (12) the Client has failed to meet the minimum Margin requirement.

## 13 **Transaction settlements and confirmations**

- 13.1 The Company will proceed with transaction settlements upon execution, in accordance with the normal practice for the Financial Instrument or the relevant market rules. The Company will provide the Client with online access to their Account via the Trading Platform, which will provide them with sufficient information on, among others, order(s) status.
- 13.2 The Client understands that transaction confirmations are available via the Trading Platform and they will be able to access account information through the Trading Platform. Through the Trading Platform the Client may view their balance as well as all of their account activity. The Client will also be able to generate daily, monthly and yearly reports of account activity as well as a report of each executed trade. Updated account information will be available no later than twenty-four (24) hours after any activity takes place on the Client's Account. At all times, Clients' account information will include, and is not limited to, trade confirmations with ticket numbers, purchase and sales rates, Margin, amount available for trading as well as current open and pending positions.
- 14 **Trading Platform usage**
- 14.1 The Client shall enter their user ID and password ("**Codes**") registered during the online account opening procedure when logging on to the Trading Platform. The Client should notify the Company without undue delay on becoming aware of unauthorized use of the Trading Platform, or if the Client suspects that the Codes have been misappropriated by a third party.
- 14.2 The Client shall take all necessary precautions to ensure the confidentiality of all information, including, but not limited to, the Codes, transaction activities, account balances, as well as all other information and all orders. The Client shall be solely responsible for all orders and the accuracy of all information sent via the internet using its Codes. The Client acknowledges that the Company bears no responsibility in the case that the Codes are used in an unauthorized manner by any third party.

## Annex 1 - Conflicts of Interest Policy

### *Introduction*

The purpose of this Conflicts of Interest Policy (“**the Policy**”) is to outline a suitable approach and response to the identification and management of conflicts of interest. 360Capital Limited (the “**Company**”) will take all reasonable steps to identify conflicts of interest between itself, including its managers, employees or any person directly or indirectly linked to the Company by control and its clients or between one client and another that arise in the course of providing any investment services.

The Company maintains and operates effective organisational and administrative arrangements to prevent and manage conflicts of interest that may arise during the provision of any investment services, from adversely affecting the interests of its clients. In the case where the aforementioned arrangements are not sufficient to ensure, with reasonable confidence, that the risks of damage to the interests of the clients will be prevented, the Company shall clearly proceed with the disclosure of such conflict. The said disclosure shall be done in a durable medium indicating the general nature and source of conflicts of interest, the risks to the client with sufficient details so as to allow the client to take an informed decision with the regards to its investment as well as the steps taken to mitigate such risks.

The Company has the right to amend the current Policy at its discretion and at any time it considers suitable and appropriate. The Company shall review and amend the current policy at least on an annual basis to take account of changes to operations or practices and, further, to make sure it remains appropriate to any changes in law, technology and the general business environment.

### *Identification of potential conflicts of interest*

To adequately manage conflicts of interest, the Company shall identify all relevant conflicts timeously. The Company will employ different mechanisms to ensure that all conflicts are identified.

The Company shall identify all conflicts of interest, their severity and document controls to mitigate the conflicts. It is not possible to list all situations which could constitute a conflict. The facts of each situation will determine whether the interest in question is such as to bring it within the area of potential conflict.

All employees, including management, will be responsible for identifying specific instances of conflict and will be required to notify the Compliance function of any conflicts they become aware of. The Compliance Officer (“**CO**”) will assess the implications of the conflict and how the conflict should be managed in conjunction with the board. In the case where a specific incident to be reported concerns the CO, the notification shall be made to the Company’s Representative Officer.

For the purposes of identifying the types of conflicts of interest that arise in the course of providing investment services and whose existence may damage the interests of a client, the Company takes into account, by way of minimum criteria, the question of whether the Company or a relevant person, or a person directly or indirectly linked by control to the Company, is in any of the following situations, whether as a result of providing investment services or activities:

- (1) the Company or a relevant person is likely to make a financial gain, or avoid a financial loss, at the expense of the client;
- (2) the Company or a relevant person has an interest in the outcome of a service provided to the client or of a transaction carried out on behalf of the client, which is distinct from the client’s interest in that outcome;
- (3) the Company or a relevant person has a financial or other incentive to favour the interest of another client or group of clients over the interests of the client;
- (4) the Company or a relevant person carries on the same business as the client; or
- (5) the Company or a relevant person receives or will receive from a person other than the client, an inducement in relation to a service provided to the client, in the form of monies, goods or services, other than the standard commission or fee for that service.

For the purpose of this Policy, a “relevant person”, in relation to the Company means any of the following:

- (1) a director, partner or equivalent, manager or tied agent of the Company;
- (2) a director, partner or equivalent or manager of any tied agent of the Company;
- (3) an employee of the Company or of a tied agent of the Company, as well as any other natural person whose services are placed at the disposal and under the control of the Company or a tied agent of the Company and who is involved in the provision by the Company of investment services and activities; or
- (4) a natural person who is directly involved in the provision of services to the Company or tied agent under an outsourcing arrangement for the purpose of the provision by the Company of investment services and activities.

#### *Managing conflicts of interest*

The Company has established suitable and adequate internal procedures for minimising any potential conflicts of interest. The Company maintains a compliance department that is an independent unit within the Company. Among the duties of the CO is to monitor any possible deviation from the Company’s internal policies and procedures as well as identifying and managing any possible conflicts of interest. Once a conflict has been identified it needs to be appropriately and adequately managed. The Compliance function will assess each conflict and determine if the conflict is actual or perceived and what the value of the conflict or exposure is and the potential reputational risk. Compliance will then decide whether it is viable to go ahead with the transaction or if the conflict is too severe. If Compliance decides that the particular conflict can be mitigated, then controls to manage the conflict should be put in place and documented.

The Company will manage conflicts of interest fairly, between itself and its clients, between itself and its employees and between its customers and to organise and control their internal affairs responsibly and effectively.

The Company and its employees should act as per the principle of placing clients’ interests before self-interests and Company’s interests in order to avoid conflicts of interest in the fulfilment of professional activities on the securities market. To ensure client’s fair treatment, the Company will introduce the following procedures:

- (1) the Company shall avoid any conflict of interest with clients and, where such a conflict unavoidably arises, ensure fair treatment to the client by complete disclosure or by declining to act;
- (2) employees are also prohibited to keep investor accounts in other brokers without the Company’s prior authorization and are obliged to bring this to the Company’s attention. They are also obliged to authorize the Company to directly request transaction reports from the other Brokers; and
- (3) if the Company has a material interest in a transaction to be entered into with or for a client, or a relationship which gives rise to a conflict of interest in relation to the transaction, the Company shall not knowingly either advise, or deal in the exercise of discretion, in relation to that transaction. The only exception is when the Company has fairly disclosed that material interest or relationship, as the case may be, to the client or the client has taken reasonable steps to ensure that neither the material interest nor relationship adversely affects the interests of the client.

There is a clear distinction between the different departments’ operations as these are described in the Company’s Internal Operations Manual.

The Company shall be informed promptly of any personal transaction entered into by a relevant person, either by notification of that transaction or by other procedures enabling the Company to identify such transactions. In the case of outsourcing arrangements, the Company shall ensure that the Company to which the activity is outsourced maintains a record of personal transactions entered into by any relevant person and provides that information to the Company promptly on request.

A person shall be replaced by another person in their duties with only prior consent of the Compliance Officer and approval by the Representative Officer. Such a consent will be given by the Compliance Officer after all issues of possible conflict of interest have been reviewed.

The security features of the Company's software prevents unauthorized access to sensitive information in order to prevent the Company having access to sensitive information of its clients or one client of another.

The Company's employees are prohibited from investing in securities for which they have access to non-public or confidential information.

Transactions by the Company's employees are neither performed nor executed by themselves, but by another member of staff of the Company considering that the account is opened with the Company.

A record shall be kept of the personal transactions notified to the Company or identified by it, including any authorization or prohibition in connection with such a transaction.

The Company must take reasonable steps to ensure that neither it nor any of its employees or agents either offers or gives, or solicits or accepts, any inducement that is likely to conflict with any duties owed to its clients.

No employee shall either knowingly or recklessly make a statement, promise or forecast that is misleading, false or deceptive to any customer or conceal material facts at any time.

More specifically, the Company states some of the policies and procedures that it has implemented for managing possible conflicts of interest below:

- (1) effective procedures to prevent or limit any person from exercising inappropriate influence over the way in which a relevant person carries out investment services or activities;
- (2) the separate supervision of relevant persons whose principal functions involve carrying out activities on behalf of, or providing services to, clients whose interests may conflict, or who otherwise represent different interests that may conflict, including those of the Company;
- (3) measures to prevent or control the simultaneous or sequential involvement of a relevant person in separate investment services or activities where such involvement may impair the proper management of the conflicts of interest;
- (4) the removal of any direct link between the remuneration of relevant persons principally engaged in one activity and the remuneration of, or revenues generated by, different relevant persons principally engaged in another activity, where a conflict of interest may arise in relation to those activities; and
- (5) measures to prevent or control the exchange of information between relevant persons engaged in activities involving a risk of a conflict of interest where the exchange of that information may harm the interests of one or more clients.

The procedures followed and measures adopted in this Policy include the following, as are necessary and appropriate for the Company to ensure the requisite degree of independence:
