

Legal Statement

The risk disclaimer is meant to inform the user of the potential financial risks of engaging in trading. The transaction of financial and other instruments can contain a substantial degree of risk. Before deciding to undertake such transactions, 360 Capital advises that clients should carefully evaluate whether his/her financial situation is appropriate. Trading may result in substantial loss of funds and/or complete loss of funds and therefore should only be undertaken with risk capital.

Please note that commodity futures, forex, and foreign exchange products are leveraged products and may not be suitable for everyone, as it is possible to lose more than the funds you deposit. Please ensure that you fully understand the risks involved.

Financial Advisory

Before trading leverage products such as OTC derivatives it is advised that you seek the advice from a Financial Advisor.

If an employee of the company claims or accepts responsibility of your losses, it is your personal responsibility to confirm that from the company directly and get a written confirmation. As per the company policy, no such claims would be entertained and under no circumstances would 360 Capital accept the risks or losses on your account.

Margin Call

The company would try its best, as a gesture of goodwill, to remind you in time if there seems to be a requirement of insertion of more margin, though, due to the volatility of this market, the company does not take any responsibility of losses occurring due to your positions being closed on account of insufficient funds. It is your responsibility to keep a close watch on your account before executing trades.
